

# COVID-19 Alert!

As we continue to follow the directives from the Federal Government, the State of Minnesota, and we continue to follow guidelines from Centers for Disease Control (CDC), the Minnesota Department of Health (MDH) and Chisago County Public Health we have discuss and determine how best to protect our staff, our families and our community while we continue to provide vital city services.

Since social distancing is a key component in combating the spread of the Coronavirus, we know that conducting business digitally provides a safe environment for all of us to keep doing the work we need to do.

We have decided to take the next step: **Effective at 6 am on Friday, March 20, city hall will be closed to the public until April 1.**

## **What does this mean for city services and operations?**

- We will continue to provide essential city services—clean drinking water, flushing toilets, snow and ice removal, and public safety response.
- We will continue to provide services (e.g. credit card transactions, building permits, responding to questions) via phone 651-257-5284 or online [nanderson@centercitymn.us](mailto:nanderson@centercitymn.us)
- We will continue to perform essential water and sewer repairs; non-essential repairs will be postponed.
- We will provide **very limited in-person services at city hall**. At this time, that includes accepting deliveries and allowing contractors to pick up water meters or other permits by appointment only.
- Payments and correspondence to the City can be mailed to: City of Center City, 300 Center Avenue, Center City, MN 55012 or you can drop in the City mail drop box located on the building next to the Clerk's office.
